The barbecue in this city Saturday, considering the inclement weather indications of the morning was all that could be expected. The heavy rain the night before put automobile traffic out

of commission, and then until a late hour in the morning the clouds looked threatening. A large crowd gathered, however, and the day went off pleasantly for all. There was little if any drunkenness and no disturbances that we heard of. Everybody seemed to be in good humor and looking for a good time. There was plenty to eat and it was well cooked.

"FATHERS OF THE CONSTITUTION OF THE U.S.A." No. 3

Alexander Hamilton—"Father of American Credit"

DANIEL WEBSTER says of Hamilton: "He smote the rock of National resources and abundant streams of revenue gushed forth; he touched the dead corpse of public credit and it sprang upon its feet." No man did more to build the Constitution of the United States than did Hamilton. He took a prominent part in every debate, and worked indefatigably on all the important committees. His genius, individuality and daring foresight are indelibly stamped upon every clause of our National Law—the law under which Americans are guaranteed for all time Religious, Commercial and Personal Liberty. During Hamilton's lifetime he used his great influence to encourage and protect the brewing industry. Among all the Fathers of the Republic none knew better than he that honestly-brewed barley-malt beers make for true temperance. This American Colossus, who was second only to Washington in the service rendered to his country, drank good beer all his days. We know of no one who has yet dared declare that it injured him in any way. Under the tenets of the Constitution, which Hamilton did so much to make a fact, Anheuser-Busch 58 years ago launched their great institution. During these years they have honestly brewed honest beers. To-day 7500 people are daily required to meet the public demand. Their famous brand BUDWEISER, because of its quality, purity, mildness and exquisite flavor, exceeds the sale of any other beer by millions of bottles.
